

NO QUARTER.

It is not as we hoped; Chile is not great enough to parole the men who made a stand for the Government; those in power will give no guarantee for the safety of the men who were opposed to them. Thereby they show that they are true Latins, and that they know nothing about the laws of forgiveness and mercy. The dispatches tell us that even the editors who supported the Government will be shot on sight if found. As a rule this is not an evidence of barbarism, because a great many editors ought to be shot, but it sounds badly on the outside, and it places the United States in an enviable light before the world. Suppose at the close of the civil war it had been proposed to shoot the editor of the Richmond Enquirer, the editors of the Charleston and other papers in the South, what a perfect rage it would have made, not only in the South but in the North. The Latin race is a vindictive and revengeful race at best, and they have not learned yet the greatness of forgiveness. We are glad that our admirals have joined with the German and English fleet commanders in Chilean waters, and will carry away all who claim their protection—Salt Lake Tribune.

The Dardanells affair may throw England into a war, as Lord Salisbury is getting pretty mad. France will support the Sultan, and Austria is pining for a scrap. With the straight trouble is directly involved the question of Egypt Moukhtar Pasha, the Porte's commissioner in Cairo, has renewed his demand through the Khedive for the evacuation of Egypt by the English. Cairo advises state that if this demand is refused Moukhtar Pasha will ask the Sultan to recall him and leave the post vacant as a protest against the Khedive's continuance toward his suzerain. Verily it looks like war in the old world.

The attitude of ridicule toward Pine Nut from many of the Nevada newspapers does it no good. There is a possibility, and an excellent one, that the new field may be a boon to Nevada. The scare from the pens of some Nevada journalists is a slow torture to advancement, and the sooner they give a short healthy spell to this recent discovery the better it will be for the State. Some of the rock is identical with the Ogden find, which section had over a thousand people at its feet in one week after the first location. Come off a little, gentlemen, and give the place a show.

The binding and reaping machines in the extreme Northwest are finishing up the wheat harvest of the year. It has been a great year for the wheat growers of the West; not only have they gathered in an enormous crop which they are marketing at liberal prices but under the McKinley law they have purchased binding twine at little more than 9 cents a pound compared with nearly 15 cents a year ago before the tariff act went into effect.

Three things are needed to make a good navy—ships, guns and men. We are getting the ships and guns, and occasionally an incident like the response of Captain White of the City of Panama to the bluff of the Salvadorian officials goes to show that we already have the men. A few officers like Capt. White in command of modern steel cruisers would make things interesting for anybody that tried to make a dish-rag of the American flag.—Wasp.

All the reports received at the Internal Revenue Bureau indicate that the production of sugar from beets, sorghum, maple syrup and cane will be up to the original estimates of the producers, under which the bounty was estimated at about \$10,500,000 per year.

The ball game is over, but the old time criticism is going on.

WM. UREN,

GOOD WORK A SPECIALTY.

PRACTICAL HARNESS-MAKER

MANUFACTURER AND DEALER IN
